

Year 7 Catch Up Funding - 2018-2019

Total for 2018/19 - £22,000

Area for development	Specific Objective	Actions and specific interventions	Cost	Key Personnel	Impact of initiative
Training and resources to support e-safety	Ensure all Year 7 pupils are able to access the internet safely and understand the importance of e-safety.	1. Specific e-safety lessons with targeted resources for Year 7 pupils. 2. Specific e-safety training for parents of Year 7 children.	£1,000	Caroline Lowry	Parent training sessions have been delivered. Individual support for parents is on-going and is delivered on a needs basis. The e-safety curriculum is well resourced and is delivered as part of the IT curriculum.
Therapeutic Interventions	Support engagement of pupils through therapeutic interventions.	1. Support Year 7 pupils struggling with transition with therapeutic interventions e.g. play therapy sessions, music therapy and access to the school counsellor as required.	£11,000	Lindsey Lucas	Therapeutic staff have been on hand to support students with transition. Therapeutic service are available immediately to support students and the internal referral process is simple and efficient. Access to services immediately has reduced the number of incidents of challenging behaviour associated with transition in Year7.
Resources to support the delivery of the WISERR curriculum	Year 7 students functioning at P1-3 will follow a new curriculum to support: • Independence • Co-operation • Social Communication • Well-Being • Resilience • Self-Regulation • Enjoyment • Engagement	1. Purchase appropriate resources 2. Support community visits 3. Facilitate release of staff for training. 4. Part fund horse riding for specific pupils. 5. Support training of staff in the delivery of the WISERR curriculum.	£7,500	Kerri Bailey Alison Dear	The Pathways department is now well established and resourced. A comprehensive programme of training has been delivered to teachers and TA's and the systems underpinning the curriculum are well organised and efficient. There has been a substantial reduction in incidents of challenging behaviour as a result of implementing a more appropriate curriculum for this cohort of students.
