

Setting up Parental Controls to Disable Internet Browsing

To prevent internet access:

1. From your device, go to Settings

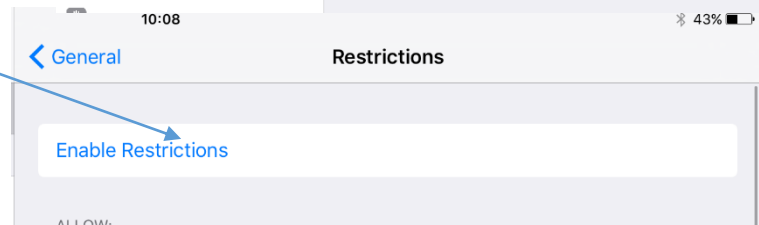

2. General

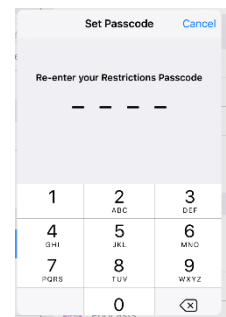

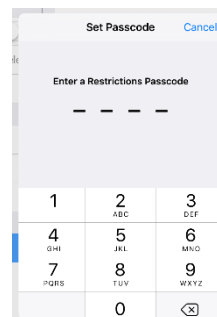

3. Restrictions.

4. Press [Enable Restrictions]

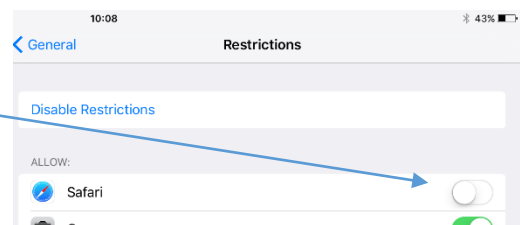

5. Enter a 4-digit passcode. You will need to enter it twice

DO NOT FORGET THE PASSCODE YOU ENTER...

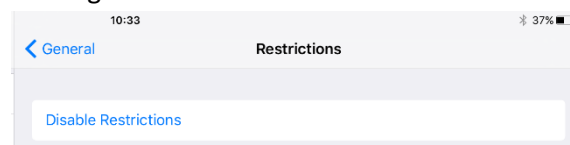

6. Under the [Allow:] section, tap Safari to OFF.
This disables Safari as the browser.

To remove the restrictions follow steps 1 to 4. You will need to enter the passcode you entered in step 5 at this stage. Tap Safari to ON if you want to allow it again.

Tap [Disable Restrictions] and enter the passcode again.

To enable the restriction again repeat steps 1 to 6.
